Comments noted at time of examination

last test at practice 2015. last test 2017 elsewhere. daughter in room with px- she is trying to sort things out for px as px has not been attending his diabetic screenng appt and glaucoma checks at epsom. left eye poor VA 6/60 with pinhole. examination reveals mild- mod cataract. oct scan done - macular is ok but there is severe glaucomatous chnages in LE. iops stable. Due to the above, please can you triage urgently for a review of the left eye for unexplained vision loss LE - likely to be due to glaucoma in this eye. pxs daughter is best contact. daughter's mobile 07787763222. Thank you
